

STAT

4 Nov 1964 Memo for Record   
Approved For Release 2004/05/05 : CIA-RDP85B00803R000200070045-7  
sub: CIA Mgmt Systems Design  
Centralization of EDP resources in CIA vs. centers in  
each Directorate - Position of top management had not been  
established clearly in November 1964, although OCS had  
received indications that centralization at the CIA level would  
be affirmed, and the third generation IBM equipment constituted  
a strong argument for centralization.
